

Infinova in the News-February 2010 Newsletter

December 09 introducing Infinova's Megapixel and IP Product Family

http://www.sptnews.ca/component/option.com_seyret/Itemid,132/id,32/task.videodirectlink/

The last quarter had some great press coverage for Infinova with our tour to meet the press and introduce them how Infinova is enabling its integrators to help their customers make the leap from analog to digital surveillance. We also gave them a heads-up on the new Infinova family of megapixel and IP products, including the new V1770 HD Megapixel PTZ Dome camera that we will be introducing at Infinova's trade shows around the world.

We talked with the editors of Security Products, Government Video, Security Technology Executive, Canadian Security, SP&T News, Security Dealer, SDM and Security, Securityinfowatch.com, Ventas de Seguridad, Security Sales & Integration, Security Systems News/Security Director News, Network Centric Security, Stores, Frost & Sullivan and IMS Research.

A highlight of the tour was our video interview discussing "when is the right time to move to IP" with Jennifer Brown, editor, Canadian Security and SP&T News. See it here:

Check out the other great news coverage on Infinova below.

Migrate to IP at Your Own Pace

<http://www.securityinfowatch.com/security-watch>

[SecurityInfoWatch.com](http://www.securityinfowatch.com) newsletter

"Infinova's Mark Wilson...visited SD&I's HQ in Arlington Heights, Ill., as part of a media tour, making several announcements during the visit. He related plans to start a new advertising campaign under the catch phrase "Should Your Customers Make the Jump to IP?" as well as strategies to launch a new line of megapixel cameras at ISC West in March in Las Vegas."

Megapixel Market Drives IP Surveillance

<http://www.experteditorial.net/securitysquared/2009/12/megapixelmarket-drives-ip-surveillance-1.html>

[ExpertEditorial.net](http://www.experteditorial.net), Steven Titch - December 2009

"The global video surveillance market grew just 3 percent in 2009. The growth rate for global IP video surveillance equipment, however, is likely to exceed 15 percent...forecasts 27 percent compound annual growth between 2009 and 2012. It sets the current U.S. IP surveillance market at \$13 billion."

Titch covers Wilson's visit in depth:

Infinova Showcasing Analog-Digital Co-Existent Surveillance System at ISC West

<http://www.governmentvideo.com/Blogs.aspx?id=91226&blogid=524>

Government Video, Sanjay Talwani - January 2010

"Analog surveillance gear doesn't have to disappear when a system advances to IP. At ISC West, Infinova will show its V2216 VMS (video management system), which makes it possible for IP and analog surveillance cameras and equipment to co-exist and be managed as a single seamless solution."

Here's what GovernmentVideo.com has to say:

Infinova unveils V6201 series fixed 1.3 megapixel color cameras

<http://www.gsnmagazine.com/node/19779>

Government Security News - January 2010

"The company (Infinova) characterizes the new series as offering excellent image quality at high frame rates, with a high signal-to-noise ratio that makes it easy to discern image details."

Infinova-a leader in H.264 discussions

<http://www.ventasdeseguridad.com/201001263484/articulos/enfoquesmiscelaneos/seguridad-de-alta-definicion.html%20>

Ventas de Seguridad - January 2010

[In English] "Mark Wilson, Infinova, stressed the importance of the number of pixels and frame rate (maximum frequency per table): "The reason people use HD cameras has to do with their property in pixels and 16:9 in the frame rate of 30ips, which is important for places like banks as in the casinos and places where it is necessary to follow the activities very closely."
